

In the 2 years that the Kansas legislature has been considering tax changes to attract hyperscale data centers, here's what has happened around the country

- [Wisconsin](#) enacted a permanent exemption on equipment and electricity, for investments of \$150M
- [Arkansas](#) granted a permanent exemption on equipment and electricity, for investments of \$500M
- [Kentucky](#) enacted a 25-year exemption for investments of \$450M
- [Louisiana](#) granted a 20-year exemption for investments of \$200M
- [Michigan](#) enacted a 25-year sales tax exemption for investments of \$250M

The tech industry is #1 when it comes to investing in America's communities and America's future. Here are some of the data center investments announced in just the last 2 years:

Google: \$1 billion in [Missouri](#)

Microsoft: \$10 billion in [Wisconsin](#)

Meta: \$10 billion in [Louisiana](#)

Google: \$2 billion in [Indiana](#)

AWS: \$35 billion in [Virginia](#)

AWS: \$11 billion in [Georgia](#)

Google: \$3.3 billion in [South Carolina](#)

Google: \$576 million in [Iowa](#)

Meta: \$800 million in [South Carolina](#)

Meta: \$800 million in [Wyoming](#)

Google: \$3 billion in [Oklahoma](#)

Meta: \$800 million in [Idaho](#)

AWS: \$10 billion in [Mississippi](#)

Meta: \$1.5 billion in [Tennessee](#)

Google: \$1 billion in [Virginia](#)

Meta: \$800 million in [Alabama](#)

AWS: \$11 billion in [Indiana](#)

Meta: \$800 million in [Indiana](#)

Meta: \$1 billion in [Illinois](#)

Meta: \$800 million in [Texas](#)

Meta: \$1 billion in [Arizona](#)

AWS: \$8 billion in [Ohio](#)

Because of the state legislature's inaction, Wyandotte County just announced it will issue industrial revenue bonds to create a sales tax exemption for a new hyperscale data center.

The legislature should now enact SB 51 to create a statewide sales tax exemption, which quickly enables any county in Kansas to attract billion-dollar data center investments, bringing economic growth, new tech jobs, and more property tax revenue.

SUPPORT SB 51 TO BRING NEW HYPERSCALE DATA CENTERS TO KANSAS

Make Kansas competitive for billions in new investment and high-paying jobs.
